- Exemption from routine Cal/OSHA programmed inspections

Safety Center Incorporated
3909 Bradshaw Rd.
Sacramento, CA 95827

This State of California workshop is conducted in partnership by the Cal/OSHA VPP Star Team and Safety Center Incorporated.

Representatives from Cal/VPP Star Sites will share their practical experiences in the Cal/VPP Star journey and the significance of implementing key elements. Cal/VPP Star consultants will also review the evaluation process and present some of the most common onsite findings during recent team evaluations.

What is the Cal/VPP Star?

The Voluntary Protection Program (VPP) is a certification program designed to recognize employers whose occupational safety and health programs are exemplary and meet specific Cal/VPP Star guidelines.

Who can apply for Cal/VPP Star status?

Any employer who desires recognition for outstanding achievements in the development and implementation of their safety and health program.

Cal/VPP Star Recognition

DOSH recognizes Cal/VPP Star sites, those whose programs go beyond the minimal Cal/OSHA standards in providing the best feasible protection at their site. They do this by providing state and national recognition to these sites, which are also exempt from Cal/OSHA programmed inspections.

To attend this one-day workshop, pre-registration is *required*.

Cost is \$25.00 to cover continental breakfast, lunch, and workshop materials.
